

The Fresh Air Project: Guidelines.

The Fresh Air Project is a smokefree outdoor dining initiative that started in Christchurch. We are thrilled that your venue is joining many other Fresh Air venues across New Zealand giving customers a healthier, fresher dining experience.

To guarantee maximum freshness, those venues who join the Fresh Air Project agree to respect the following guidelines:

1. Your venue supports only 100% Fresh Air dining (this means no separated/ designated smoking areas onsite and removal of all ashtrays from the premises)
2. Use of Electronic Nicotine Delivery Systems is not allowed on premises (ENDS- Also known as e-cigarettes, vape pens and other vaping devices) Vaping looks like smoking and could cause confusion amongst customers.
3. We encourage venues to use the available Fresh Air signage. However, if you would like to develop your own signs we encourage you to incorporate the Fresh Air logo, (to help grow the Fresh Air community). Please seek permission first and share your great ideas with us.
4. Clear communication takes place with all staff before introducing your new smokefree outdoor dining area so that staff are familiar with your 'go to message' on why your venue is now Fresh Air. The Fresh Air project team can help with positive messaging.
5. Any staff who smoke or vape, do so off premises to avoid confusion.
6. Help staff link to support if they wish to quit smoking. Local smoking cessation support is available through Stop Smoking Canterbury/Te Hā Waitaha Tel: 0800 425 700 / email: smokefree@cdhb.health.nz
7. You agree to get in touch with the Fresh Air team if something changes and you feel you are no longer able to uphold / respect the terms of this agreement.

We continually work to develop the Fresh Air project so reserve the right to make small changes to these guidelines over time. You will be notified of any changes.

Ion behalf of agree to the guidelines listed above in respect to being a Fresh Air Venue
